

PHILIDA AMAS IGHARO

JUNIOR BACKEND ENGINEER

Krefeld, Germany · 0176 60275007 · philbabe@rocketmail.com

GitHub: github.com/Philida · LinkedIn: linkedin.com/in/philida-igharo-61382b1ab

PROFESSIONAL PROFILE

Junior Backend Engineer with a recently completed Diploma in Backend Engineering from AltSchool Africa and hands-on experience developing backend applications and REST APIs. Skilled in Node.js, TypeScript, Express.js, NestJS, PostgreSQL, MongoDB and Prisma, with practical experience in authentication, database design, API development, testing and deployment. Several years of professional experience in logistics and supply chain management have strengthened my accuracy, problem-solving, reliability and teamwork. Now seeking a Junior Backend Engineer / Junior Software Engineer role.

TECHNICAL SKILLS

Backend	Node.js · Express.js · NestJS · TypeScript · JavaScript · REST APIs · API Design · JWT · Authentication & Authorization · Socket.IO · Nodemailer · Cron Jobs
Databases & ORM	PostgreSQL · MongoDB · MongoDB Atlas · Prisma ORM · Mongoose · SQL · Database Design · CRUD Operations
API & Testing	Postman · Swagger / OpenAPI · API Testing · Request Validation · Error Handling
Tools & Frontend	Git · GitHub · VS Code · Git Bash · Render · MongoDB Compass · React · Next.js · HTML5 · CSS3
Additional	Cloudinary · QR-code functionality · Email integration

SELECTED SOFTWARE PROJECTS

Eventful API — Event Management Backend

NestJS · TypeScript · Prisma · PostgreSQL · JWT · Swagger/OpenAPI · Cloudinary · Nodemailer

Backend API for an event-management platform.

- Built RESTful endpoints for authentication, event management and ticket purchasing.
- Implemented JWT-based authentication and authorization.
- Developed QR-code ticket generation/scanning with duplicate-scan protection.
- Added reviews, favorites, analytics, notifications and scheduled reminders.
- Used Prisma with PostgreSQL and documented the API with Swagger/OpenAPI.

Restaurant ChatBot — Full-Stack Application

Node.js · Express.js · MongoDB · Mongoose · JavaScript · HTML · CSS

Restaurant ordering application with a Node.js/Express backend.

- Built REST API functionality for food ordering and order management.
- Implemented order item management, checkout and simulated payment confirmation.
- Used MongoDB/Mongoose for persistence and deployed with Render.

SELECTED SOFTWARE PROJECTS — CONTINUED

Birthday App — Full-Stack Application

React · Node.js · Express.js · MongoDB · Mongoose · Nodemailer · Cron Jobs

Birthday-management application with automated email notifications.

- Implemented creation, editing and deletion of birthday records and countdowns.
- Built automated birthday greeting emails with Nodemailer.
- Implemented scheduled email processing using Cron Jobs and deployed with Render.

Live: birthday-app-da8m.onrender.com

Real-Time Guessing Game

Node.js · Express.js · Socket.IO · React

Real-time multiplayer guessing game using WebSocket communication.

- Implemented real-time communication between players and the server using Socket.IO.
- Built sessions with questions, answers, scoring, timers and attempts.
- Added game-master controls and subsequent-round management.

PROFESSIONAL EXPERIENCE

Galaxus Deutschland GmbH — Krefeld

Logistics Operator – Supply Chain Management · October 2022 – Present

- Perform order picking, storage and inventory activities within daily logistics operations.
- Process goods through system-based booking and rebooking procedures and maintain accurate stock records.
- Perform barcode checks to prevent incorrect or duplicate item processing.
- Ensure high-quality packaging to minimize the risk of damage during transportation.
- Work closely with colleagues and team leaders while maintaining accuracy, reliability and process quality.

Amazon Logistik — Krefeld / Mönchengladbach

Logistics Associate · 2020 – 2022

- Supported daily warehouse operations and processed customer orders according to quality requirements.
- Worked efficiently in a fast-paced environment while maintaining accuracy and collaborating with team members.

PROFESSIONAL EXPERIENCE — CONTINUED

Daimler / Mercedes-Benz — Düsseldorf

Logistics / Operations · 2019

- Supported operational processes, followed established procedures and quality standards, and worked collaboratively within a team.

Pflegedienst — Krefeld

Pflegediensthelferin · 2017 – 2018

- Supported daily care and service activities in a responsible, team-oriented environment.

EDUCATION

AltSchool Africa — School of Engineering

Diploma in Backend Engineering · July 2026

Completed a practical backend engineering program covering Node.js, TypeScript, NestJS, REST APIs, PostgreSQL, MongoDB, Prisma, authentication, testing and deployment.

Hochschule Rhein-Waal — Kamp-Lintfort

Communication and Information Engineering · Since 2018 · Ongoing / not completed

CAREER FOCUS

Seeking a Junior Backend Engineer or Junior Software Engineer position where I can contribute to real-world software projects, apply my backend development skills and continue developing professionally.

LANGUAGES

English — Native / fluent

Edo — Native

German — Fluent, written and spoken

Dutch — Basic knowledge
